

## Weekly Report #2

Team 40

Project Title: Design an interactive learning platform to engage large size classroom

Date: 10/7/21

### **What we've accomplished in the past week/what we've been researching**

- Robert Walling
  - Created lightning talk powerpoint, organized google drive, helped with project plan assignment
- Nick Oswald
  - Worked on the project plan with the team and set up the Gantt chart.
- Michael Kies
  - Worked on the project plan with the team, and set up the document. Also attended team meetings and TA meetings. Looked up and started conceptualizing some of the backend architecture.
- Vance Kaw
  - Contributed to working on the project plan and attended weekly group meetings with the team.
- Jeremy Tracz
  - Worked on the Project Plan document with the team. Attended weekly and biweekly meetings for TA and client respectively. Helped record lightning talk.
- Daniel King
  - Attended group meetings, available to help team when needed
- Brian Sayre
  - Worked on the project plan with the rest of the team.

## What we're planning to do in the coming week

- Robert Walling
  - Work on the design assignment
- Nick Oswald
  - Work on the design assignment and start designing the overall architecture.
- Michael Kies
  - Work on the design assignment. Start designing and planning out the backend/database architecture.
- Vance Kaw
  - Worked on the design assignment and contributed to the team.
- Jeremy Tracz
  - Helping the team with design assignment and lightning talk
- Daniel King
  - Help the team with whatever they need for the week/design assignment
- Brian Sayre
  - Start the design assignment as well as working on the specific designs for either the front end or back end.
